Lean-Flow Bodyshop Solution

Analysis and Continuous Improvement One Day Training Course

The Lean-Flow Application contains a wide range of Analysis Tools which are designed to give you an insight into your performance and hence allow you to drive a process of Continuous Improvement in your business.

This Course teaches you how to use the Analysis Tools and gets you started on your improvement journey.
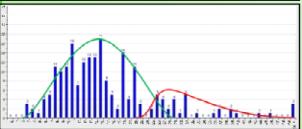

You will learn how to :-

Review your progress on Fast flow and On-Time Delivery using
- Buffer % Report
- On-Time Delivery Report
- Cycle Time (Hrs/Day) Report

Review your Cycle Time Performance and understand how to drive your cycle time down
Review your Productivity and Perform Capacity Reviews

You will be analysing your **own** Bodyshop during the course and will leave with a better picture of your performance and actions to improve it

Pre-Requisites :-
Lean-Flow running for a minimum of 6 weeks
Experience of using the Lean-Flow Application
Attendance at the 2 Day Initial Training (Recommended)

If you are able to bring a laptop to the training that would be very helpful—If you cannot please let us know when you book

To book your place please speak to your regular Lean-Flow contact or speak to :

Tony Lumb (07738 171115) tony.lumb@lean-flow,co.uk
